

NOTES OF THE WEEK.

From 12th to 19th September.

A LAROUS and influential meeting in favour of the extension of the railway into a more central site in the city was held on the 12th instant, in the Chamber of Commerce, Exchange. The chair was occupied by Mr. Sydney (Mr. James Morrissey). Resolutions were proposed and carried, and a committee was appointed.

A deputation from the Municipal Conference waited upon the Colonial Secretary, on the 12th instant, and endeavoured to impress upon him the necessity of an increased endowment.

At a session in Milsons Harbour, last Thursday evening, Mr. John Baker was for some time lost sight of, but was at last discovered.

It is reported that a rich mining reef had been found at Penrith, near Goulburn.

The second annual general meeting of the Bass Sydney Cricket Club was held at the Municipal Council Chambers, Paddington, on the 11th instant. Mr. Bent, the Mayor of Paddington, was in the chair.

On the 11th instant, at a meeting was given at the Glebe Congregational schoolroom, in aid of the building fund.

— Mr. Buchanan is introducing a bill to allow an accused person to sit during trial, and otherwise to amend the Law regarding evidence relating to prisoners.

Admiral Roche, of the French naval fleet, entertained a full party of gentlemen at dinner on the 11th, and 12th instant. The Atlantic has since gone to sea.

The body of the little boy who had strayed away from his parents, in Cooma, was found in a watercourse on Saturday.

About ten days ago there was a large fire on the range of Goulburn Plains, Goulburn.

At Murrurundi, on Saturday last, the Rev. Mr. O'Keefe accidentally shot himself with a pocket pistol, and gave himself a serious injury.

The Herald of the 16th instant contains an account of the meeting, in July, of the schooner Layne, and the misfortune of four of her crew, natives of New Ireland.

On Saturday last, a number of the men employed in the traffic department of the Great Southern and Western Railway, accompanied by their respective families, proceeded to Menangle-by-rail; for the purpose of holding a picnic. About 300 availed themselves of the privilege accorded by the Hon. Minister for Works.

Mr. J. G. O'Connor, the new member for Mudgee, returned to his seat on Monday evening last.

Early this month (says the *Dubbo Dispatch*), a black fellow named Jacky Barren murdered his gun, by stabbing her with a spear. Several blackfellow's were present at the scene of the murder, but that native was not reported to the police till a few days ago.

The opera opened at the Victoria Theatre last Monday night. The opera was "Lucia di Lammermoor."

Last Monday evening, a blower was given at William's Metropolitana Hotel, King and Castlereagh streets, by the Bench and Bar of this colony to Sir Edward Grey, the Chief Justice of Ceylon.

The Hon. Mr. Justice of the peace, the chairman of the Lyrickians, and the members of the Hills, March of this juvenile battalion prevail in this parish on a Sunday afternoon.

The No. 11 Martin Luther Lodge of the Extended Order of the Protestant Alliance Friendly Society celebrated their first anniversary on Tuesday last.

A football match was played on Saturday, 15th instant, at Canterbury College, between the scholars and ex-scholars of that institution.—The game resulted in an easy victory for the scholars.

"Mr. James Morrissey, the Mayor of Sydney, entertained a very large number of friends and fellow-citizens at Parliament Park on Tuesday last. About 400 persons were present.

Last Friday night, at the foundation-stone of an Oddfellows' hall, was laid at Granville.

Mr. Mackenzie is engaged making a report of Mr. Merewether's 700 acres of coal land near Newcastle, leased to Mr. Hannell and others.

On the 9th instant, at Wollongong, a very large and influential meeting was held in the Queen's Hotel, for the purpose of forming a railway league to urge on the Government to construct a railway from Port Jackson to Sydney.

The inquest on the fire at Mr. Cleary's drapery establishment at Newcastle terminated on Wednesday last. The jury returned a verdict that the premises were wilfully set fire to by some person or persons, but that there is no evidence to show by whom.

At the Harrisburg Chapel, on the 17th instant, Mr. H. C. Webb, the Welsh organist, died.

Dr. Thomas, the Anglican Bishop of Goulburn, has announced his intention of visiting Europe at the beginning of next year.

"Human remains have been found in the bush at Pinebone, in the Maitland district.

On the 8th or 9th instant, two men belonging to the Bondi and Neutral Bay section of the same club, were driving a raft of timber down the Nepean River, and, after striking at the heads were washed off, the two men and three blacks being drowned.

Last Thursday afternoon, a man named Patrick Galen died in the Turkish Bath.

The Criminal Law Consolidation Bill was committed pro forma on the 13th instant, and the New South Wales Abolition Bill was read a third time on the 14th.

The Report of the Commission on Public Charities was laid on the table of the Legislative Assembly by the Premier, on the 18th instant, and was published in the *Herald* on Friday last.

A girl, named Harriet Gardiner, from the school at Blaize, was found dead in the bush near Canterbury, a few days ago. The cause of death is supposed to have been self-inflicted.

Mr. Crankshaw opened the telegraph line at Bremerton on Tuesday last.

On Thursday last, at Young, a public meeting was held for the purpose of raising funds to build a large hall in connection with the School of Arts; Mr. W. J. Watson, J.P., the president of the institution, was in the chair.

Mr. Alexander Berry died at the Grove's Nest, St. Leonards, on Friday, the 17th instant, aged ninety-two years. He was buried at St. Leonards Cemetery on the 19th instant.

SYDNEY MUNICIPAL COUNCIL.

A MEETING of the Municipal Council of Sydney will be held at the Town Hall, York-street, to-morrow, at 11 o'clock, for considering the following notices of motion:

1. By Alderman Moore.—That the report of the Finance Committee be accepted this day, recommending the payment of some arrears he has adopted.

By Alderman Moore.—That this Council by their order that a charge of 1/- per annum, less than one-half, be made to the inhabitants of Sydney by Governor Macarthur, and described in the *Sydney Gazette*, October 6th, 1873, and 18th, 1874.

By Alderman Moore.—That an application be made to the Government for possession of the proposed road extending from the corner of Pitt-street and George-street, to the corner of Pitt-street and Elizabeth-street, and upon all properties in the city of Sydney, connected with a public sewer or part thereof, that is to say upon all properties situated at the corner of Pitt-street and Elizabeth-street, and not exceeding 20/- per cent.; above 20/- and not exceeding £500, per cent.; above £500, and not exceeding £2,000, 2 per cent.; above £2,000, and not exceeding £5,000, 1 per cent.; above £5,000, and not exceeding £10,000, 1 per cent.

By Alderman Moore.—That the application be made to the Government for the protection of the stock and labour force, and for the payment of the same being granted for the inhabitants of Sydney by Governor Macarthur, and described in the *Sydney Gazette*, October 6th, 1873, and 18th, 1874.

By Alderman Moore.—That an application be made to the Government for the payment of the proposed road extending from the corner of Pitt-street and George-street, to the corner of Pitt-street and Elizabeth-street, and upon all properties in the city of Sydney, connected with a public sewer or part thereof, that is to say upon all properties situated at the corner of Pitt-street and Elizabeth-street, and not exceeding 20/- per cent.; above 20/- and not exceeding £500, per cent.; above £500, and not exceeding £2,000, 2 per cent.; above £2,000, and not exceeding £5,000, 1 per cent.; above £5,000, and not exceeding £10,000, 1 per cent.

By Alderman Moore.—That the application be made to the Government for the protection of the stock and labour force, and for the payment of the same being granted for the inhabitants of Sydney by Governor Macarthur, and described in the *Sydney Gazette*, October 6th, 1873, and 18th, 1874.

By Alderman Moore.—That the report of the Lighting Committee, received this day, be accepted.

By Alderman Moore.—That the report of the Improvement Committee, received this day, recommending the purchase of property Nos. 67 and 68, cornering forty-five feet frontage on the south side of Pitt-street, and twenty-four feet deep, for the purpose of opening Victoria-street, to the proclamations width, be adopted.

By Alderman Moore.—That this Council do now proceed to consider the tenders for—1. Formation, &c. Formation-street. 2. Formation, &c. Victoria-street. 3. Formation, &c. John-street. 4. Formation, &c. Gloucester-street. 5. Draining, laying stoneware sewer, Union-street. 6. Laying stoneware lace of Hay-street.

</

METROPOLITAN AND ILLAWARRA RAILWAY.

(From the Illawarra Mercury.)

A PUBLIC meeting of the inhabitants of this district for the construction of a line of railway between Illawarra and the head of Port Jackson took place at the Queen's Hotel, on Tuesday evening last. The meeting was largely attended. Mr. W. Thompson (Mayor of Illawarra) took the chair.

Mr. Biggar read a letter from Mr. Robert Haworth respecting coal, and then opened the meeting.

He said that the inhabitants of this district wanted a railway they must show how to do it. As well known, much information was expected in Illawarra, in the way of evidence, as to the practicability of Port Jackson being connected with the head of the river.

Then let them to other parts of the country where there were railroads, and take such steps as they deemed necessary to induce the Government to make a survey.

Mr. Biggar then proceeded to address the meeting. He said that the inhabitants of this district wanted a railway they must show how to do it. As well known, much information was expected in Illawarra, in the way of evidence, as to the practicability of Port Jackson being connected with the head of the river.

Then let them to other parts of the country where there were railroads, and take such steps as they deemed necessary to induce the Government to make a survey.

Mr. Andrew Lyons, J.P., seconded the resolution. The meeting adjourned at 8 P.M. to consider making a report to the Government, and the committee were then called before the meeting, and the members of the movement having withdrawn, and no other gentleman having taken his place, the amendment passed, and the motion was carried.

Mr. John Biggar read a letter from Mr. Robert Haworth respecting coal, and then opened the meeting.

He said that the inhabitants of this district wanted a railway they must show how to do it. As well known, much information was expected in Illawarra, in the way of evidence, as to the practicability of Port Jackson being connected with the head of the river.

Mr. Biggar then proceeded to address the meeting. He said that the inhabitants of this district wanted a railway they must show how to do it. As well known, much information was expected in Illawarra, in the way of evidence, as to the practicability of Port Jackson being connected with the head of the river.

Then let them to other parts of the country where there were railroads, and take such steps as they deemed necessary to induce the Government to make a survey.

Mr. Andrew Lyons, J.P., supported this motion.

Mr. Biggar pointed out that a survey had been made three years ago, of the course of a railway line from Wellington to Albion Park, and that the whole of that line was not a few yards in making a survey of a railway between Sydney and Illawarra, while they were preparing millions in making railways to other parts of the colony.

Not only would the cost of the survey be small, but the cost of the survey to the district was the want of suitable facilities to send produce to market. Our little port of Wellington was very small so far as it went, and reflected great credit upon the colony.

It was also a great advantage to the colony.

It was a large sum of money that they had to spend, and the more they had to spend, the more they had to earn.

Speaking of cost only, no less than the cost of the proposed railway, it was evident that the cost of the district, more especially as regarded its coal trade. Since Wallington harbour was improved it had increased the railway's traffic.

A railway to Illawarra would be a benefit to the district, and of late years became little better than a dragnet.

Then let them to other parts of the country where there were railroads, and take such steps as they deemed necessary to induce the Government to make a survey.

The motion was then carried unanimously.

THE MINER AND CROWN LANDS.

PARKAMATTA.

(From our Correspondent.)

YESTERDAY morning the miners held a meeting at the Queen's Hotel, on Tuesday evening last. The meeting was opened by Mr. W. Thompson (Mayor of Illawarra) took the chair.

Mr. Biggar read a letter from Mr. Robert Haworth respecting coal, and then opened the meeting.

He said that the inhabitants of this district wanted a railway they must show how to do it. As well known, much information was expected in Illawarra, in the way of evidence, as to the practicability of Port Jackson being connected with the head of the river.

Then let them to other parts of the country where there were railroads, and take such steps as they deemed necessary to induce the Government to make a survey.

Mr. Andrew Lyons, J.P., supported this motion.

Mr. Biggar pointed out that a survey had been made three years ago, of the course of a railway line from Wellington to Albion Park, and that the whole of that line was not a few yards in making a survey of a railway between Sydney and Illawarra, while they were preparing millions in making railways to other parts of the colony.

Not only would the cost of the survey be small, but the cost of the survey to the district was the want of suitable facilities to send produce to market. Our little port of Wellington was very small so far as it went, and reflected great credit upon the colony.

It was also a great advantage to the colony.

It was a large sum of money that they had to spend, and the more they had to spend, the more they had to earn.

Speaking of cost only, no less than the cost of the proposed railway, it was evident that the cost of the district, more especially as regarded its coal trade.

Since Wallington harbour was improved it had increased the railway's traffic.

A railway to Illawarra would be a benefit to the district, and of late years became little better than a dragnet.

Then let them to other parts of the country where there were railroads, and take such steps as they deemed necessary to induce the Government to make a survey.

The motion was then carried unanimously.

MURRUMBIDGEE TURF CLUB HANDICAPS.

These following are the weights declared for the Handicaps at the forthcoming meeting of the Murrumbidgee Turf Club, at Wagga—

THE WAGGA CUP.

Mr. E. De Meete's Dogworth, 10 lbs; T. J. Ryan's The Ace, 10 lbs; T. J. Ryan's The Arrow, 9 lbs; H. J. Bowler's g. Formosa, 5 years, 9 lbs; G. Bowler's g. Tasman, 5 years, 9 lbs; J. Ryan's g. Tasman, aged, 9 lbs; T. J. Ryan's Lancer, aged, 9 lbs; E. De Meete's g. Tasman, aged, 9 lbs; Mr. P. Owen stated that he had in his possession plans and other documents connected with the survey to be made, and that the Government had agreed to pay him £1000 for the survey, and £1000 for the preparation of the map.

Mr. George Haviland said it was his opinion that it would be a benefit to the district if a railway was made to Illawarra.

The people of Illawarra were situated in the interior, and the traffic and produce of the line would increase, as a matter of certainty, every year.

The quality of coal he had named would pass along the line for a certainty within the first year after its construction, and there was no doubt that it would be a benefit to the district.

The people of Illawarra were situated in the interior, and the traffic and produce of the line would increase, as a matter of certainty, every year.

THE LAND.

(From the Sydney Mail, September 20.)

The subject of the paper Mr. R. L. Jenkins is to read before the members of the Agricultural Society on Wednesday is one that is sure to draw a large assemblage. The PRINCIPLES THAT SHOULD GUIDE THE CATTLE BREEDERS' OF NEW SOUTH WALES, is a matter of the utmost importance at the present time. We stand in need of a larger supply of cattle, and cattle of better quality. The state of supply is alarming. The price of beef will soon come to equal those that prevail in London £6, and 7d., a pound is being paid for prime joints, and 10d. for beef-steak. What expense of labour and capital will be required? Surely there is indisputable evidence to multiply the herded stock of the colony with 2 and 3 year-old store cattle from £6 to £8 per head. And then, we regards quality, the consideration needs to be impressed more forcibly upon the mind of the breeder and grazier that it costs no more to feed a good than to feed a bad bullock. If we are ever to succeed as exporters, too, dependence must be placed on prime, not ordinary meat. There are many points of great interest and importance in connection with cattle breeding at the present time which should be treated on such occasion as will be presented on the 24th, and it may be expected that the attendance of gentlemen interested in these matters will be large, and their utterances characteristic by wisdom.

So far, as the supply of cattle is concerned, there is no question that we will be in a position of a political character, inasmuch as it is due to the land policy at present in force. A great change in the supply would be observable were such amendments made in the law as would give greater security to capital. As it is men will not risk their property on holdings of uncertain tenure, and a vast amount of the land is held on such terms. Land which now supports a bullock on ten acres might easily be made to support a bullock on five acres, and land which feeds a bullock on one acre. It should, therefore, be our policy to grant the necessary facilities and security to those who are willing to increase the fertility of the public estate. This is a consideration which, although foreign to the subject of the paper in question, should not to be lost sight of by the law amenders.

The present low state of supply is doubtless due in some degree, as shown by the Chief Inspector's figure of the actual state of disease. Anthropomimia has made great ravages. Infestation has arrived by the mail, by which we perceive how seriously the stock of a country may suffer from disease. Mr. Duckham, the editor of the Hereford Herald Book, in his evidence before a Parliamentary Committee, showed that the United Kingdom lost in the year 1872, by the foot-and-mouth disease alone, the sum of £19,000,000. This sum represents direct losses—indirect losses, such as the loss to breeders and to the country by the death and incapacity of celebrated stud animals, and the breaking up of established herds, is not computed.

We are in receipt of the annual report of the GRAFTON AGRICULTURAL SOCIETY, by which we perceive that their entries at the last show amounted to 346, the number of prizes offered being 131, and the amount paid £129 18s. 6d. There seems to be a loan from the Joint Stock Bank, which is being gradually wiped off. Last year, the subscriptions gave £129, the gate money £82, and entrance fees £24. The society has the advantage of an energetic and intelligent president, Mr. T. D. Steiner, and is gaining rapidly annually.

The following are the figures of what will be given for the next show in March, 1874, and suggestions are requested for the improvement of the schedule.

Glass Mammals.—Animals which suckle their young. Section Pinnae. Mammals with fin-shaped arms, &c.

Ocean. Pinnipedia.—The seal tribe, comprising the walrus, the sea-bear, and sea-lions and the com-mon seals.
